

# Our family AI safety agreement.

A one-page agreement for building useful things without sharing what should stay private.

For: Parent and student. This is a living resource. Find the current online version inside the First Build resource library.

## We agree to

Initial each item together.

- Use approved tools and parent-visible accounts where appropriate.
- Never enter passwords, home addresses, private school information, medical details, financial details, or another person's personal information.
- Ask before creating a public profile, publishing, purchasing, or inviting others into a project.
- Treat AI output as a draft to test, not an authority to obey.
- Tell an adult when a tool, message, or project feels confusing or unsafe.

## Signatures

This agreement begins a conversation, not a surveillance system.

- Student name and date: \_\_\_\_\_
- Parent or guardian name and date: \_\_\_\_\_

Homegrown Builders is an AI project studio for teens. Parents approve accounts, public sharing, and purchases.
